**drummer's  
shoes**

SENSITIVE RYTHM is a flexible and well ventilated shoes, soft and comfortable, without laces, of a very elastic material with a sticking out and super adherent sole. Especially designed to improve your performance as being without shoes you can feel better the resistance and the return of the pedals, the dynamics and the volume of the playing as much as the precision in the rapidity of the shots. Easy to transport in their small bag for your feet to breath the sensitivity of the rhythm.

**Y. De Lagare**  
**Sensitive Rythm**  
**drummer's shoes**  
Many drummers are more aware of their instrument, drum kit and hardware than their own feet and their functions on the various pedals.

**1 | Neopren**

*soft, elastic and ventilated material*

**2 | Clip**

*closing the shoe*

**3 | Ventilation**

*ventilation's net*

**4 | Soft rubber soles**
